

PRIMEHIDE®

2020

Hello from the Primehide Team!

Over the past year we have been working behind the scenes designing products for our new and updated catalogue to bring you a fantastic new range of leathers we hope you love!

Primehide has been offering high quality, affordable leather products for over 20 years and our wealth of knowledge in the leather industry shines with the quality and design of our products.

As we move in to 2020 we are conscious of the evolving world around us and at Primehide we are constantly looking at sustainable and eco friendly ways of doing things. We are currently updating our packaging to be made from 100% recycled and biodegradable materials. We have already introduced this with our new product ranges and pledge that all packaging will be made from recycled materials by 2022.

We have been collaborating with Upcycled leather for a few years now with our Ranger collection and we are developing the use of Upcycled leather in other products. Look out for future collections using this Eco friendly option.

We have upgraded to higher quality leather for some existing ranges to bring you the same practical and desirable styles that you love but with a better hand feel. Our range now has many new styles and on trend colours to offer you.

We are always keen for feedback and love meeting our customers at the trade shows, so do pop by and say hello! Customer service is very important to us and we strive to give you the best possible service at all times.

Did you know that Primehide also offers a Made To Order service?

We have a number of Corporate and Retail customers that place bespoke orders with us. We can offer low MOQ's at affordable prices, if you are looking for a product that is not in the catalogue or fancy having some own branded merchandise then please get in touch!

BLACK

The Ranger collection is made from Upcycled Leather. This not only means we can offer you 100% genuine leather at unbelievable prices, but you're also helping the environment by using leather that could otherwise end up in landfill.

Just because this leather is Upcycled does not mean we compromise the quality. You will still get the same great quality that you always get with your Primehide products. We aim to increase our use of Upcycled leather throughout our ranges over the next few seasons.
